

First-Year Information Session - Arts & Science

What is Co-op?

- Hands-on, practical work experience
- Optional program
- Available to students in Honours Arts or Science programs

Benefits of participating in the Co-op program

- Helps to clarify your career path
- Fundamentals Course
 - Assists with skills development – eg. hard/soft skills and learn valuable job search skills
- Personal assistance from a Co-ordinator
- Access to postings - Navigator

Eligibility for Arts & Science

- Enrolled in any Honours Arts/Science program within the Faculty of Arts or Science
- Have a 1st year GPA (Grade Point Average) of B- (7.0) overall, or C+ (6.5) overall with a B- (7.0) in your major
- Enrolled in **and** maintain full time studies (4 courses)

Application Process

Stage 1 – Applicants to Arts and Science Co-op need an overall GPA of at least 7.0 in first year, or a GPA of at least 7.0 in their honours discipline courses and at least 6.5 overall

Application deadline is:
Monday, September 9, 2019

Stage 2 – Students are contacted in the summer via their “mylaurier” email account about the Co-op admission interview. Students submit resume to the Co-op Office 24 hrs before their interview, your resume will need to include contact information (names, phone number and email address) as well as start and end dates for any work and volunteer experiences.

Stage 3 – Coordinators select successful applicants

Year 2	Study Term	Study Term	Summer Vacation
Year 3	Study Term Fundamentals	Study Term Fundamentals	Work Term Begins
Year 4	WT Continued	WT Continued	WT Continued
Year 5	Study Term	Study Term	

Competitive Admissions Process

During the co-op interview you are evaluated on:

1. Volunteer and extracurricular activities (senior year of high school and first year of university)
2. Previous work experience
3. GPA
4. Admission interview performance

The Interview

- We will consider the quality of all your answers when evaluating your interview performance.
- Your ability to communicate your skills and accomplishments is a key component of the interview.
- We consider your ability to be concise and stay within the 15 minutes allotted when assessing your interview performance.
- When telling us how you have developed certain skills, we encourage you to use examples from various experiences.
- At the end of the interview we will ask you to tell us anything you wish to add in support of your application. Be sure to tell us about any accomplishments or experience you have not had an opportunity to mention earlier.

The Interview

- We assess what candidates communicate in the interview, not items listed on the resume.
- We don't consider activities you're going to do (only what you've done up until the end of O-week.)
- Most students choose Laurier in part because of co-op; we are not able to consider this as reason to admit students.
- Selection is based equally on all 4 categories, lack of experience in one category is a challenge

The STAR Method

▪ STAR

SITUATION – provide a good framework, why it was a challenging situation

TASK – the problem / task at hand that needs to be solved

ACTION – the steps YOU took in detail

RESULT! – the end result; was it successful?

- Make sure your answer has a beginning, a middle and an end

The Interview

- Depending on the program you have applied for, the timeline for results will vary
 - Arts & Science – Early Fall
 - CS/DS/AWS – Late Fall
- Competitive
 - 200-300 applicants
 - 90-100 admitted

Fundamentals Schedule ex. A&S

September / October Welcome Information session Navigator session Resume and cover letter workshops Resumes due for review	February Interviews begin Job postings continue
November / December Job search workshop Personal job search begins Speaker's Series	March Work term preparation workshop Job postings and interviews continue
