

Laurier and Community Partnerships

Need Students for your Organization?

*Shape the quality of your workforce | Benefit from students' skills and ideas
Inspire growth and social awareness*

Community & Workplace Partnerships

Identify a weekly placement or a project that provides students an opportunity to connect their course material with an experience for your organization. You may opt to have them assist with a program, conduct research or creatively solve a problem.

Co-operative Education

Meet your short-term hiring needs, manage special projects or gain a fresh perspective by hiring a co-op student. This experiential learning model of education integrates and alternates a student's academic learning with workplace learning for periods of 4, 8, and 12 months of paid employment depending on academic discipline.
